PROJECT SHEET

www.derivan.com.au

YOU WILL NEED

- Derivan Face & Body Paint 40ml in white, red, black, yellow & blue.
- Derivan Professional Brush Set #1
- Sponge.
- Mixing palette or plastic plate.

Recommended:

Face & Body Butterfly & Flower Set.

METHOD

STEP 1

Cover the area you will be using on the sponge with white. Using the flat brush (from the brush set) paint stripes of red, yellow and blue over it.

STEP 2

Begin by gently stamping and patting the loaded sponge on the outer edges above the eyes, then the cheeks and under the eyes. Make sure the sponging is even and balanced on both sides of the face. Take care not to paint too close to the eyes and ask your model to keep their eyes closed when painting on or near the eyelids.

STEP 3

Load a round brush with black and paint the outline of the butterfly wings as shown in the picture.

STEP 4

Load the liner brush (from the brush set) with black and paint the body and butterfly antennae in the middle of the forehead.

STEP 5

You can now finish off your design by using the end of the brush handle to paint white dots to add some fun white spots detail on the wings.
