facepainting PROJECT SHEET

www.derivan.com.au

YOU WILL NEED

- Derivan Face & Body Paint 40ml in fluoro pink, blue, green, black & white.
- Derivan Professional Brush Set #1
- 2.5cm Foam brush.
- Mixing palette or plastic plate.

METHOD

STEP 1

Starting with a clean face, apply a small amount of moisturiser or barrier cream. Place fluoro pink, blue and white on a palette and use these to create a purple mix.

STEP 2

Load the foam brush with the purple mix on one side and fluoro pink on the other. Hold the foam brush with purple at the bottom, draw first a straight line across the forehead and slightly above this, create a scalloped pattern keeping the pink to the top.

STEP 3

Using the liner brush, outline the crown with black and add some extra black swirls or shapes inside it. Embellish the crown with dots of white using the end of the round brush. Add white highlights in the embellished areas using also a round brush.

STEP 4

Using the liner brush, paint a green 'S' shape on the right cheek and add a mirror version on the left one. Double load a round brush with blue and white and dub to create 5 petals of a flower using the 'S' as a guide. This should be placed on the line of the 'S'. Create additional flowers using the colours on your palette.

STEP 5

Fill the flower centres by adding a white dot to each with the end of the round brush. Add 'buds' by painting single petals away from the 'S' shape. Add leaves by double loading the round brush with green and white and dub along where the 'S' is, filling in the spaces.
