facepainting PROJECT SHEET

www.derivan.com.au

YOU WILL NEED

- Derivan Face & Body Paint 40ml in brown, red, black & white.
- Sponge Brush 2.5cm wide.
- Derivan Professional Brush Set #1
- Sea Sponge.
- Mixing palette or plastic plate.

METHOD

STEP 1

Starting with a clean face, apply a small amount of moisturiser or barrier cream.

Using the foam brush, paint the bandana across the forehead, with a knot and ties to the side with red.

STEP 2

Using the end of the foam brush dipped in white, create the polka dots.

STEP 3

With the liner brush (from the set) dipped in black, outline the bottom of the bandana, the knot and ties at the end.

STEP 4

With a damp sea sponge, pick up a little brown and dab over the jaw line and moustache area to create 'stubble'.

STEP 5

Add black dots around to the chin and upper lip to create more defined stubble in those areas. Using the round brush (from the set) and black, paint on the pirate's eye patch, ensuring you do not go too close to the eye - especially with younger children.

Finish by adding a scar with red paint and the liner brush.
