PROJECT SHEET

www.derivan.com.au

YOU WILL NEED

- Derivan Face & Body Paint 40ml in white, red & black.
- Derivan Professional Brush Set #1
- Sponge.
- Mixing palette or plastic plate.

Recommended: Face & Body Superhero Set.

METHOD

STEP 1

Using a sponge loaded with white Derivan Face and Body paint, gently dab around the eyes. Take care not to paint too close to the eye and ask your model to keep their eyes closed when painting on or near the eyelids.

STEP 2

Load a clean sponge with red paint and dab to cover the forehead, nose and cheek area around the white.

STEP 3

Load a round brush with black and define by outlining the white area around the eyes, as shown in the picture.

STEP 4

With the liner brush (from the set), loaded with black paint, create lines starting at the bridge of the nose and radiate out to the edge of the face.

STEP 5

Using the pointed brush and black, paint half circle shapes to connect the radiating lines to make a web pattern as shown in picture 5. Finish your design off by outlining the edge of spiderman's red mask also in black.
